### Repair Request Form

Please complete the Repair Request form below with the required information. Include a copy of the completed form with your equipment when shipping in for repair. We **STRONGLY** recommend you ship it in the carrying case and put it in a cardboard box. If you have an older unit (more than 12 years old), a laser purchased from a big box store, or an inexpensive laser, call before sending in to make sure parts are still available. An evaluation fee is applicable for unrepaired equipment. The evaluation fee **is waived** for authorized repairs or purchase of new replacement by the customer. At Lasco our 2 service technicians have a combined 40 years of laser and instrument experience. Your equipment is in good hands. All equipment left at LASCO, Inc. for repair or estimate NOT picked up for six months or longer will be sold for the cost of repair.
