

RR182 professional grade

RoadRunner[®] measuring wheels

RR182 Advantages

- It's easy to measure curved, horizontal and asymmetrical surfaces.
- Count numbers are magnified through innovative lens.
- Weighs about 2 pounds.
- Measures 9,999 feet, 11 inches (or 9/10ths of a foot with engineers' models) without resetting.
- Two-section handle telescopes up to 38 inches so you can measure without bending.
- Dual wheels enable a simple straight line operation.
- Adds while rolling forward and subtracts when pulled in reverse.
- **6-year warranty** from date of purchase.

Model	Units	circ.	dia.	special
