# HAWKEYE

Universal Laser Receiver

The HAWKEYE™ is a laser grade control tool that you can put to work immediately... mounted to your machine or to your grade rod.

## Versatile:

- Large 5" laser capture height for quick beam pick-up.
- 240° angular reception for increased laser visibility.
- Rugged Lexan™ housing stands up to harsh construction environments.
- Works with all rotating lasers.

## Machine Mounted:

- Ideal for backhoes, small excavators, dozers, skid steers, and box blades. Works on both sides of the dipper stick.
- Dual powerful magnets for quick, secure mounting to equipment, without welding.
- Bright flashing LED grade indication lights are easy to see from the machine - Green on-grade - Red high and low.
- Adjustable accuracy - fine and wide - to meet your jobsite requirements.

## Grade Rod Mounted:

- Ideal for general purpose elevation control around the jobsite. Use to check form work, footers, and site preparation.
- Additional receivers increase the productivity of your laser.
- Bright LCD indicates high, low, or on-grade as well as battery, beeper, and volume status.
- Additional features include selectable beeper volume control, heavy duty rod clamp, and automatic shut-off.

## Specifications\*

Vertical acceptance range:	5.0" (12.7 cm)
Horizontal acceptance range:	240°
Detection accuracy:	Grade rod mode 3/16" (5mm)
	Machine mode-fine 3/8" (10mm)
	Machine mode-wide 1" (25mm)
Battery type	2 x "AA"
Battery life:	160 hours
Auto shut-off:	30 minutes
Operating temperature:	-4°F to +120°F (-20C to +50C)
Environmental:	Waterproof

*Apache Technologies, Inc.*

*is the world's largest  
manufacturer of laser detectors  
for construction and agriculture.*

*This position of leadership has  
been obtained by developing  
leading edge, proprietary and  
patented laser detection tech-  
nologies. These technologies are  
employed in all of Apache's hand  
held detectors and machine  
control receivers.*

*Apache also manufactures  
the full line of BULLSEYE  
Grade Display Systems*
