

SCALE MASTER II®

Advanced Digital Plan Measure with Optional PC Interface

**Contractors • Estimators • Engineers • Architects • Landscapers
Pipeline Builders • Excavators • Concrete Contractors
Plumbers • HVAC Contractors • Fencing Specialists
Telecommunications & Cable System Contractors
Pavers • Electrical Contractors • And Many More!**

Scale Master II makes it easy for you to do linear, area and volume take-offs with speed, accuracy and confidence. Whether you're responsible for estimating, bidding or planning, *Scale Master II* offers the ultimate in take-off capabilities. Its optional PC interface kit makes it simple to input any value directly into spreadsheet or estimating programs using DOS, Windows® v3.0 or higher or Windows® 95 for even greater time savings and convenience.

Product No. 6125

- Fast take-offs improve productivity
- Accuracy helps to ensure profitability... proper use provides error-free linear, area and volume take-offs
- Versatility of multi-scale capabilities... 91 built-in scales and 8 "custom" scales cover all practical print and plan applications
- PC interface capability means valuable entry time is reduced, keystrokes are minimized and transposition errors are eliminated

■ 91 Built-in Scales

50 Imperial (feet-inch) units and 41 Metric, for maximum versatility in architectural, engineering and civil/map scaling.

■ Eight "Custom" Scales

Four each for Imperial and Metric units, lets you "roll" or define any scale, even from plans that have been reduced or enlarged or are unscaled. And, each can be permanently stored for later use.

■ Exclusive! Dedicated Length and Width Keys

Lets you roll, store and recall L, W (and H) values, and easily find rectangular areas and volumes, instantly.

■ Imperial/Metric Mode Switch

■ AutoCount Feature

Automatically "counts" how many times your pre-set distance has been rolled. Great for automatic stud counts, columns, fence posts, outlets, fixtures, or any other regularly spaced items.

■ Count While Rolling

Push-button counter lets you count items as you roll (i.e., studs, piers, outlets, etc.).

■ Constant (+K) Key

Allows you to add (or subtract) a constant value to the distance measured. Great for "drops" and add-ons.

■ Wide Range of Dimensional Units

Use best-suited units to fit your work: Decimal feet, feet-inches, decimal inches, yards, miles, nautical miles, acres. Also millimeters, meters, kilometers, hectares — most available in square and cubic formats.

■ Subtract Key

Deducting rolled lengths is now intuitive and easy.

■ Accumulating (M+) Memory

Allows you easy totalling of dimensions or counts — perfect for multi-page plans.

PC Interface Capability with Optional Kit

Product No. 6215

With the optional **PC Interface Kit**, you can instantly send values directly from your *Scale Master II* into your favorite PC spreadsheet or any estimating program. This compatibility feature will save you countless keystrokes and much time compared to manual input. Plus, you'll reduce data transfer errors and speed up estimate/bid completion and accuracy.

Scale Master II Specifications

SIZE:	7.2" x 1.6" x 0.6" (182 mm x 41 mm x 15 mm)
WEIGHT:	2.4 oz. (68 gm) — including Vinyl Case
POWER:	Two 3-volt Lithium (CR-2430) Batteries. Battery Life: Use 400+ hours; Storage 2+ years
DISPLAY:	7-digit LCD with Full Annunciators
WHEEL RESOLUTION:	0.025" (0.635 mm)
WHEEL COMPOSITION:	Celcon® Polymer
ENTRY SYSTEM:	Bi-directional Rolling
ACCURACY:	10 Digits Internal Math Accuracy; 99.75% Measuring Accuracy
DISPLAY CAPACITY:	7 Digit Main Display; 3 Digit Count Display
INCLUDED WITH EVERY CII PRODUCT:	Easy-to-Understand User's Guide Protective Carrying Case (<i>Except DigiRoller Plus, Pocket Dimension Master and desktop calculators</i>) Long-Life Batteries
ONE YEAR WARRANTY:	All Calculated Industries calculators and electronic tools are covered by a Full One-Year Limited Warranty against defects in materials and workmanship. The full text of each warranty is published in the documentation accompanying each product. Calculated Industries reserves the right to make changes in the materials and specifications of products without notice.

PC Interface Kit Specifications

SYSTEM REQUIREMENTS:	PC compatibility, DOS and Windows® v3.0 or higher or Windows® 95, one Serial Port
MEMORY REQUIREMENTS:	170K RAM for DOS installation; 2K for DOS operation of Connect Terminate and Stay Resident program (TSR)
KIT CONTENTS:	8-Foot (2.5 m) Cable, one 3.5" Disk for DOS and one 3.5" Disk for Windows® and Windows® 95, and an Installation/Operation Manual
